Profile

As a software engineer, I'm passionate about front-end and back-end development, specializing in DevOps and UI/UX design. I stay updated with the latest technologies, always striving to be a valuable asset to the world. With a focus on creating user-friendly applications, I bring together my skills and love for what I do to make a positive impact in the digital realm.

Education

Graduate Diploma in Software Engineering, *Institute of Software Engineering*

2022 – 2024

The program covers a wide range of topics, including software development methodologies, programming languages, web and mobile application development, database design and management, software quality assurance, and project management. The curriculum is regularly updated to keep up with the latest industry trends and technologies, ensuring that students are always learning the most up-to-date skills.
